								36	0
Path/package	#	File Name	Type	Notes	DONE?				
	1	AnnotationClient.java	client	- Pablo Mendes	0				
	2	BoundingBox.java	C	-- Romain Gallet	0				
	3	Classification.java	R	- SVM classification with train data - very long!	0				
	4	Coordinate.java	C	-- Romain Gallet	0				
	5	DBConnect.java	C	-- connect to mongoDB	0				
	6	DegreeConnect.java	C	- useless	0				
	7	DistanceBetweenTwoGPS.java	C	- one function computes distance btw two loc	0				
	8	DMSCoordinate.java	C	-- Romain Gallet	0				
	9	EarthCalc.java	C	-- Romain Gallet	0				
	10	FetchTweetById.java	T	- should be tested	0				
	11	GPSCoordinate.java	C	- like DMSCoordinate	0				
	12	HighFreqTerms.java	C	- from apache	0				
	13	IndexAnalyzer.java	R	- Promising, should be tested	0				
	14	Indexer.java	R	- promising, should be tested	0				
	15	IndexManager.java	C	- very long and ugly, should be tested	0				
	16	LocationManager.java	C	- 2357 lines, seriously!?	0				
	17	Main.java	R	- command line interface to run live-stream, fetch-tweet etc.	0				
	18	MapSortByValue.java	C	- sorted hash map	0				
	19	Notifier.java	C	- seems like a notifier (thread) for a mobile device	0				
	20	Point.java	C	- Romain Gallet	0				
	21	RadianCoordinate.java	C	- Romain Gallet	0				
	22	ReadFromDB.java	T	- Read from DB and write to buffer	0				
	23	ReadGPSFromEventWriteToFile.java	T	- almost exactly like ReadFromDB	0				
	24	Settings.java	C	- an enum wanna be	0				
	25	ShutdownHook.java	C	- seems completely useless	0				
	26	StreamFromDBForTest.java	C	- almost exactly like ReadFromDB	0				
	27	StreamReader.java	C	- like ReadFromDB, but reads twitter streams, write both db and file	0				
	28	TermStats.java	T	- apache class for term statistics	0				
	29	TextAnalytics.java	C	- collects all the features harvested from a tweet, might be useful	0				
	30	Trust.java	C	- thread, checking the 'situations', occasional DB connection	0				
	31	TweetOSMDispatcher.java	C	- thread, controls the location info, ugly string operations, batch update	0				
	32	TweetStat.java	C	- kind of tweet serializer, useful for passing tweets btw threads	0				
	33	TweetTestGenerator.java	C	- might be useful, definitely needs a clean up	0				
	34	TweetToFile.java	C	- collects tweets with status 1, and writes them to tweets.txt	0				
	35	TweetWaitingDispatcher.java	C	- gets waiting tweets f. DB & sends them to location man., then deletes.	0				
	36	UpdateDB.java	C	- very similar code with ReadFromDB	0
